## BEWARE OF WHO YOU BUY

The army isn't coming home in rags and tatters. It isn't a public charge. Discharged soldiers don't have to beg or to peddle souvenirs for a living.

American Red Cross, Lake Division headquarters, has been asked by National Headquarters to issue this second warning to people of Ohio, Indiana and Kentucky.

"The situation is becoming almost a menace," says the order.

The American Red Cross in every town and municipality in the three states of the Lake Division is helping the man who comes home to take up again the life he left to enter his country's service.

Red Cross Home Service workers are ready to help him get a job, and a good one. If he is in need of a little ready money, or his family is suffering, the Red Cross is ready with a loan. If he is disabled, and cannot go back to the old line of work, the government will train him for something else. It isn't necessary for him to beg, or to sell post cards, buttons or any kind of souvenirs.

Most of the uniformed peddlers are fakirs. They have no right to the uniform they are wearing. Many of them have never been inside an army camp. But it is fairly easy to fake a uniform, and get easy money from the patriotic public. "Don't encourage the man who commercializes his country's uniform. Don't buy his wares."

## WILSON ENDORSES SALVATION ARMY.

President Wilson, burdened as he is, found time to cable his endorsement of the Salvation Army Home Service Fund Campaign, which will be conducted during the week of May 19-26. The cablegram:

Commander Miss E. Booth,  
Personal, Salvation Army,  
120 West Fourteenth Street,  
New York:

I am very much interested to know that the Salvation Army is about to enter into a campaign for a sustaining fund. I feel that the Salvation Army needs no commendation from me. The love and gratitude it has elicited from the troops is a sufficient evidence of the work it has done, and I feel that I should not so much commend it as to congratulate it. Cordially and sincerely yours,

## TO HOLD SEED TESTING SCHOOL JUNE 11 AND 12

In order to assist the seed trade in adjusting itself to the provisions of the new Ohio seed law, a two-day's course in seed testing has been arranged by the College of Agriculture at Columbus on June 11 and 12. The course is not intended to develop expert seed analysis but to provide sufficient training to enable the average seed dealer to analyze, test, and label the common seeds which he handles. No tuition fee is charged. Each person enrolling, however, will pay \$2.50 for equipment, which becomes his personal property. Further information may be had from the Department of Farm Crops, College of Agriculture, Columbus.

Steam Engine Helped.  
It is an historic fact that the development of the steam engine enabled England to stand the cost of the wars with Napoleon and speedily enjoy a more widespread prosperity than the country had ever before known.
